

3 January 1963

MEMORANDUM FOR: Dr. Scoville

SUBJECT: *USIB-D-34.4/4, 27 December 1962

1. The subject paper is the fourth attempt at getting before USIB the recommendation of the President's Foreign Intelligence Advisory Board on scientific and technical intelligence. As you will recall, it was Mr. McCone who sent it back for some study of costs. All I can say is that six months later, the cost section is hardly worth the effort. *Hear! Hear!*

2. However, insofar as our interest is concerned, they have not changed the wording having to do with coordination of new collection programs. Therefore I recommend that our position, which we took on the original paper, is still valid, namely, we let this paper go through and not be bound to any formal coordination system, thereby being free to make our own arrangements with DOD.
